

# Our Goal

Community reentry supportive services, employment, job training and key resources are a continuation of the reentry planning and transition assistance provided by:

- Case Managers
- Pre-Release Specialists
- Facility-based Parole Officers
- Community Parole Officers
- Community Reentry Specialists
- Employment & Training Navigators
- Community Partners

These collaborative partnerships support statewide initiatives to decrease recidivism, enhance public safety, and increase each offender's chances of achieving success upon his or her release.

This balanced approach provides a continuum of intervention strategies while maintaining professionalism, accountability and fiscal responsibility.

Our Mission is to protect the citizens of Colorado by holding offenders accountable and engaging them in opportunities to make positive behavioral changes and become law abiding productive citizens.

## Community Reentry *Employment & Training*

The  
Department  
of Corrections  
Community  
Reentry Programs  
serve recently  
released men and  
women throughout the  
state of Colorado

## How We Can Help

*Statistics show the overwhelming factor in reducing recidivism is employment. In other words, people with stable employment have a better chance of staying out of prison.*

- The Employment & Training Navigators specialize in working with offenders to enhance job readiness encouraging long-term employment goals with sustainable wages through case management, soft skill classes, and job training referrals.
- Employment & Training Navigators collaborate with state workforce centers and educational facilities to identify certificate and job training programs that enhance skills development for our clientele. They also work with local businesses and community organizations to promote workforce development projects, internships, and apprenticeship programs.

## Who We Are

Community Reentry programs provide case management and supportive services throughout the state to assist with removing barriers that may prevent a successful transition from prison to the community. Individual stabilization assistance or resources may include housing, transportation, clothing, personal hygiene, back-packs, work tools, employment training and job placement.

Reentry planning and assistance provides offenders the opportunity to be successful, responsible and pro-active citizens. Services are incentive based, requiring the offender's participation and accountability.

**Employment & Training Navigators provide individualized services to assist recently released offenders with overcoming the unique challenges they face**

For more information about reentry services in your area contact the Broadway Reentry Center at 303-763-2481 or visit the main website at <http://www.doc.state.co.us/parole-and-community>
